प्रति,

मा.प्राचार्य/संचालक,

सर्व संबंधित संलग्न महाविद्यालये/मान्यताप्राप्त संस्था.

विषय : महाविद्यालय गुणवत्ता सुधार योजनेअंतर्गत बिगर आदिवासी व आदिवासी विभागातील संलग्न महाविद्यालय/मान्यताप्राप्त संस्थाना शैक्षणिक वर्ष सन २०१७-१८ मध्ये सौर ऊर्जा उपकरणे अर्थसहाय्य मंजूरीबाबत.

महोदय/महोदया,

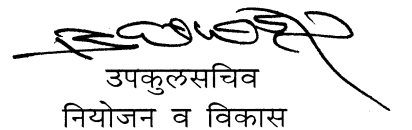

महाविद्यालय गुणवत्ता सुधार योजनेअंतर्गत बिगर आदिवासी व आदिवासी विभागातील संलग्न महाविद्यालय/मान्यताप्राप्त संस्था यांनी शैक्षणिक वर्ष सन २०१७-१८ मध्ये ऑनलाईन पध्दतीने सौर ऊर्जा उपकरणासाठी मार्गदर्शकतत्वांस अनुसरून प्रस्ताव सादर केलेले आहेत. अशा महाविद्यालयांना/संस्थांना त्यांच्या नावापुढे नमूद केलेल्या रकमेस सोबत जोडत असलेल्या मार्गदर्शकतत्वांस अनुसरून विद्यापीठ नियमाच्या अधिन राहून सोबत जोडलेल्या तक्त्यात नमूद केल्यानुसार त्रुटींची पूर्तता करण्याच्या अटीवर अर्थसहाय्य मंजूरी देण्यात येत आहे. अर्थसहाय्य मंजूरीची विद्यापीठ संकेतस्थळावरील यादी हीच मंजूरी समजण्यात यावी. अर्थसहाय्य मंजूरीची स्वतंत्र पत्रे पाठविण्यात येणार नाहीत.

आपल्या महाविद्यालय/संस्थेस जरी वरीलप्रमाणे अर्थसहाय्य मंजूरी देण्यात आली असली तरी प्रत्यक्ष कार्यवाही पुढील गोष्टींची पूर्तता झाल्यानंतरच रक्कम अदा केली जाईल.

१. महाविद्यालय/संस्थेस सौर ऊर्जा उपकरणे बसविण्याकरिता भेटी, प्रत्यक्ष पाहणी अहवाल पडताळणी इत्यादिसाठी रू. ५,०००/- मा. वित्त व लेखाधिकारी, सावित्रीबाई फुले पुणे विद्यापीठ, पुणे-७ यांचे नावाने एम.एल.सी. कोड नं. ११०३७ (Charges for Proposal of solar Energy Equipment) कोड नं. ९४ चलन नंबर ५४ ने ऑनलाईन जमा करणे आवश्यक आहे.
२. सदरील रक्कम रू. ५,०००/- प्राप्त झाल्यानंतर भेटीसंबंधीची आंतरशास्त्र ऊर्जा प्रणाली विभागाकडून पुढील कार्यवाही सुरू होईल. मा.संचालक, आंतरशास्त्र ऊर्जा प्रणाली विभाग यांच्या कार्यालयात भेटी देण्याबाबत या दूरध्वनी क्रमांक ०२०-२५६०१४१५/२५६९५२१०, १. डॉ.संदेश जाडकर- भ्रमणध्वनी क्रमांक ९७६५३६११२४, २. श्री.आदिनाथ फुंदे- भ्रमणध्वनी क्रमांक ८२०८८३४६३३ वर संपर्क करावा.
३. सदरील विभागाकडून भेटीचा अहवाल प्राप्त झाल्यानंतरच आगाऊ (उचल) रक्कम अदा करणेबाबत विचार केला जाईल.

४. महाविद्यालय/संस्थेने अधिकृत पुरवठादाराकडून सौर ऊर्जा उपकरणे बसविल्यानंतर आंतरशास्त्र ऊर्जा प्रणाली विभागाकडून काम यशस्वीरित्या पूर्ण झाल्याचा अहवाल प्राप्त झाल्यानंतर देयकाची अंतिम रक्कम अदा केली जाईल.
५. महाविद्यालय/संस्थेने सौर ऊर्जा उपकरणे यशस्वीरित्या न बसविल्यास आपणांस देण्यात आलेली आगाऊ रक्कम व्याजासह विद्यापीठास परत करावी लागेल.
६. महाविद्यालय/संस्थेने सौर ऊर्जा उपकरणे ही अधिकृत केलेल्या पुरवठादारांकडूनच बसविण्यात यावीत. आपल्या महाविद्यालय/संस्थेस आंतरशास्त्र ऊर्जा प्रणाली विभाग यांनी भेट दिल्यानंतरच पुरवठाधारकांची यादी देण्यात येईल. इतर खाजगी पुरवठादारांकडून सौर ऊर्जा उपकरणे बसविल्यास रक्कम अदा केली जाणार नाही. याची कृपया नोंद घ्यावी.
७. सदरील सौर ऊर्जा उपकरणे बसविण्याकरिता यापूर्वी देण्यात आलेली मार्गदर्शकतत्वे व त्यासोबतचे नियम लागू राहतील.
८. यापूर्वी बांधकाम शीर्षकांतर्गत मंजूर केलेल्या बांधकामासाठी उचल रक्कम घेतली असून, बांधकामाचे अंतिम हिशोब आतापर्यंत सादर केलेले नाहीत. अशा संबंधित महाविद्यालय/संस्थेस सौर ऊर्जा उपकरणे बसविण्याकरिता मंजूरी दिली जाणार नाही.
९. महाविद्यालय/संस्थेने सादर केलेल्या प्रस्तावात नमूद केलेली माहिती खोटी असल्याचे निदर्शनास आल्यास अथवा मार्गदर्शकतत्वांचे तंतोतंत पालन न केल्यास सदरील अर्थसहाय्य रद्द करण्याचे अधिकार विद्यापीठ कार्यालयाकडे राखून ठेवण्यात आलेले आहेत.
१०. सदर योजना ही बांधकाम शीर्षकाचाच एक भाग असल्यामुळे दोन वर्षांतून एकदा म्हणजे एक वर्षाआड या योजनेचा लाभ घेता येईल.
११. ज्या महाविद्यालय/संस्थांनी All India Survey of Higher Education (AISHE) व Management Information System (MIS) सन २०१७-१८ ची माहिती अद्याप भरलेली नाही अशा महाविद्यालय/संस्थांनी गुणवत्ता सुधार योजनेअंतर्गत अर्थसहाय्यासाठी सादर केलेल्या प्रस्तावांना उपरोक्त माहिती भरल्याची पोहोच प्रत सादर केल्यानंतरच अर्थसहाय्य अदा केले जाईल.

कळावे,

उपकुलसचिव
नियोजन व विकास

सोबत : वरीलप्रमाणे.

**Technical Guidelines for Procurement of Rooftop Solar Photovoltaic System
Under
Quality Improvement Program of Savitribai Phule Pune University**

- 1) **Selection of Vendors:** Colleges/Institutes are instructed to select the vendors/ suppliers of the PV system from the Channel Partners registered with MEDA (list attached). Quotations from at least 03 suppliers must be invited and compared for technical and financial aspects as per code of conduct for procurement procedure.
- 2) **Joint Inspection Report:** After commissioning, the system will be inspected by the committee members of Savitribai Phule Pune University (SPPU). The inspection will be based on the parameters specified in the joint inspection report and the outcome of the report must be satisfactory. The system must be installed as per the technical specifications given in **Annexure-1** herewith.
- 3) **Audited Statement of Expenditure (SoE):** The audited SoE of the beneficiary must be submitted to SPPU. The audited SoE must contain the details of the total invoice cost of the system separately showing the cost of the solar system and extra charges, and the total amount incurred on the system by the beneficiary. The audited SoE must be submitted in the original letter head of a certified Chartered accountant duly signed and date stamped by the Chartered accountant clearly mentioning his FR Number.
- 4) **Project completion and performance report with photographs:** The project completion and performance report is mandatory to claim the grant as it ascertains the authenticity of the project. The project completion and performance report must be submitted to SPPU. This report also certifies the handing and commissioning of the system. Performance data for at least 15 days need to be submitted. Installation of Remote monitoring system is mandatory. The login id and password should be provided to the Savitribai Phule Pune University. The applicant must submit at least three photographs of the installed systems which should highlight location site and the installed systems. All the photographs need to be pasted neatly in an A4 sheet paper. The beneficiary colleges/ institutes should submit the six monthly progress reports to SPPU.
- 5) **Joint undertaking Certificate from beneficiary:** The manufacturer and beneficiary had to submit an undertaking certificate jointly signed by the two parties (i. e. Beneficiary College and The Supplier of System).
- 6) **Operation and Maintenance of the system:** Operation and Maintenance of the complete PV system shall be in the scope of Vendor/Supplier for minimum five years.
- 7) **Dismantling the system:** The beneficiary colleges/institutions cannot dismantle the PV system without prior permission of the Savitribai Phule Pune University authorities.

Technical Specifications of components in Rooftop PV system under QIP program of SPPU

| SR. NO. | DESCRIPTION OF ITEM | SUPPLIER MAKE |
|------------|---|--|
| A-1 | Modules-PolyCrystalline | |

Sub. : Purchase Order for Solar Plant (15KW).

Dear Sir/Madam,

With reference to the above subject, we would like to inform you that your quotation has been accepted and we are pleased to place our order for the following solar plant. You are requested to deliver the material at Jawahar Education Society's, Institute of Technology & Management Research, Gangapur Road, Nashik.

| Sr.No. | Particulars | Qty. | Rate Rs. (Per KW) | Total Amt. Rs. |
|--|---|-------|----------------------|----------------|
| 1 | Solar PV Plant Capacity On Grid Solar PV system | 15 KW | 51,000 | 7,65,000 |
| 2 | Net metering, Energy meter & MSEDCL Liaisoning cost Included | | | |
| 3 | Hot Dip Galvanizing Structure (Delta Shape) Cost included. | | | |
| Total Amt.Rs 7,65,000=00 | | | | |
| GST 5% Rs. 38,250 = 00 | | | | |
| Net Payable Amt Rs. 8,03,250=00 | | | | |

Note : 1) All required items must be as per the list provided by Savitribai Phule University, Pune (List Attached).

2) Payment subject to quality satisfaction.

3) Net payable amount is inclusive of all taxes & other charges.

Terms & Conditions: As per quotation.

Thanking you,

For Jawahar Education Society

Report on Vermi-Composting Plant

Composting a process used to decompose organic matter for the production of compost. There are various methods used to decompose organic waste amongst which vermicomposting is the fastest method for decomposition in which the waste is decomposed within 40 to 45 days. Vermicomposting can also be applied for treatment of sewage sludge. A variation of the process is vermifiltration (or vermidigestion) which is used to remove organic matter, pathogens and oxygen demand from wastewater or directly from blackwater of flush toilets. Vermicompost (vermi-compost, vermiculture) is the product of the composting process using various species of worms, usually red wigglers, white worms, and other earthworms, to create a mixture of decomposing vegetable or food waste, bedding materials, and vermicast. Vermicast (also called worm castings, worm humus, worm manure, or worm faces) is the end-product of the breakdown of organic matter by earthworms. These castings have been shown to contain reduced levels of contaminants and a higher saturation of nutrients than the organic materials before vermicomposting. Vermicompost contains water-soluble nutrients and is an excellent, nutrient-rich organic fertilizer and soil conditioner. It is used in farming and small scale sustainable, organic farming.

Our educational institute (Jawahar education society institute of technology and management, Nashik) is dealing with organic waste management using the same vermicomposting technique with the help of red earthworm (*Eisenia foetida*). Red earthworm has the ability of high multiplication rate. The technique is generally used for Gardening waste which is around 30 to 35 Kg every 2 weeks in accordance with paper waste of 5 to 6 Kg ever alternate day. The composting plant will be decomposing gardening, paper and canteen (which is negligible) waste which accounts for approximate 50 Kg organic waste. This organic waste will give its final product of compost after 45 days of its cycle which will later be use to increase nutritive value of garden soil.

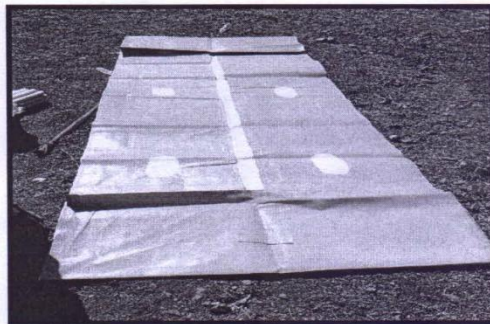

The overall valuation of the plant (size 12 x 4 x 2 m) is as follows:

- 1) Cost of bed with earthworm: 3500 Rs.
 - 2) Cost of PVC pipe: 800 Rs.
- Total Cost: 4300 Rs.

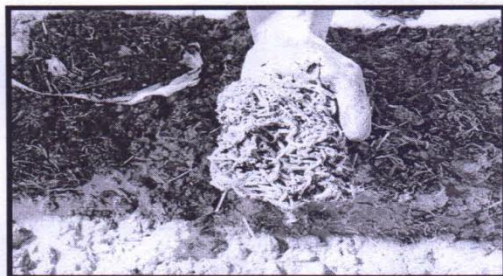

In accordance with above mentioned ingredients the major role is played by cow dung which accounts of approximate 20 Kg in weight.

Liquid waste management

Report on soak pit

The soak pit, basically of a simple pit (generally approximately 1 m^3), should be between 1.5 and 4 m deep, but as a rule of thumb, never less than 2 m above the groundwater table. It should be located at a safe distance from a drinking water source (ideally more than 30 m). The soak pit should be kept away from high-traffic areas so that the soil above and around it is not compacted. It can be left empty and lined with a porous material to provide support and prevent collapse, or left unlined and filled with coarse rocks and gravel. The rocks and gravel will prevent the walls from collapsing, but will still provide adequate space for the wastewater. In both cases, a layer of sand and fine gravel should be spread across the bottom to help disperse the flow. To allow for future access, a removable (preferably concrete) lid should be used to seal the pit until it needs to be maintained.

Health Aspects/Acceptance

Factsheet Block Body

As long as the soak pit is not used for raw sewage, and as long as the previous collection and storage/treatment technology is functioning well, health concerns are minimal. The technology is located underground and, thus, humans and animals should have no contact with the effluent. It is important however, that the soak pit is located at a safe distance from a drinking water source (ideally at least 30 m). Since the soak pit is odorless and not visible, it should be accepted by even the most sensitive communities

Open Soak pit

PRINCIPAL
Jawahar Education Society's
Institute of Technology, Management
and Research, Nashik

Operation & Maintenance

- A well-sized soak pit should last between 3 and 5 years without maintenance. To extend the life of a soak pit, care should be taken to ensure that the effluent has been clarified and/or filtered to prevent the excessive build-up of solids.
- The soak pit should be kept away from high-traffic areas so that the soil above and around it is not compacted. Particles and biomass will eventually clog the pit and it will need to be cleaned or moved. When the performance of the soak pit deteriorates, the material inside the soak pit can be excavated and refilled.
- To allow for future access, a removable (preferably concrete) lid should be used to seal the pit until it needs to be maintained.

Applicability

- A soak pit does not provide adequate treatment for raw wastewater and the pit will quickly clog. It should be used for discharging pre-settled backwaters or greywater.
- Soak pits are appropriate for rural and peri-urban settlements. They depend on soil with a sufficient absorptive capacity, whereas clay soils as well as hard packed or rocky soils are not appropriate. They can be used in almost every temperature, although there may be problems with pooling effluent in areas where the ground freezes. They are not appropriate for areas prone to flooding or that has high groundwater tables and should be constructed in a distance of at least 30 m from drinking water wells in order to prevent cross-contamination.

Purpose of soak pit-

The waste water generated from the our campus from canteen, as well as WC has to be disposed. If it is disposed in open it not only creates unhygienic conditions, foul odors but also invites epidemics and diseases.

Normally in well planned cities the municipal infrastructure will have centralized sewerage network where you can connect the waste water to the municipal sewerage system. But the JIT COE is out of city. Therefore we provide the soak pit for the disposal of waste water However, when the municipal sewerage system is absent, one has to provide a soak pit.

In septic tank effluent from WC is collected. The effluent here gets treated biologically and the treated water will then be connected to the soak pit. Ultimately the waste water in the soak pit will get absorbed by the surrounding soil. In a way, even if proper absorption area is available, the waste water will pollute the ground water.

Construction details –The soak pit dimensions 2mX2m.

Subject: To Replace old batteries by (26A-B Quanta) & Proposal for AMC For
UPS

Respected sir,

As per above mentioned subject, the existing old batteries life has been expired. So
need to be replaced by new UPS batteries at Server Room. Existing all dead batteries will be
given under "buyback" scheme.

The Annual maintenance contract (Comprehensive) is also recommended to avoid
downtime during online Examinations.

So I request you to sanction the same.

Thanking you,

[Signature]
Yours faithfully,
(Mr. Lokesh V. Shinde)
System Admin Department Incharge

Water Conservation Report

Water is essential for life and plays a major role in earth's climate.

Catch the rainwater from localized catchment from roof of a college. It is an easy process to collect rainwater and divert it into tanks to store for longer periods and to recharge by construction of Rainwater Harvesting (RHW) Structures in suitable sites.

Rainwater Harvesting in our Institute --

The process of collecting the rainwater by construction of sump through filters for future productive use and recharge the rainwater in a scientifically planned way by construction of longitudinal drain water harvesting structures to augment the groundwater.

Report on Guest Lecture conducted on “Environmental pollution”

Name of Speaker: Mr. Sandeep patil

Audience: SE- Mechanical, Computer, Electrical, E&TC Student

Date and Time: 4th Dec. 2012, 3.00 pm

Point Discussed:

- Current scenario of pollution in India
- Source and Causes of air pollution
- Sources and Causes of water pollution
- Various way to reduce air and water pollution
- Importance of tree plantation

Photograph:

Lecture on “Environmental pollution” with Audience

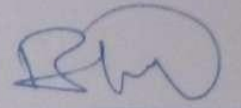

College campus landscaping with trees and plant

Date: 01/07/2016.

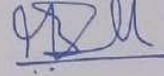

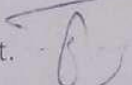

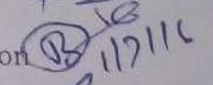

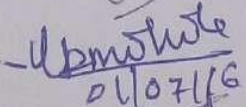

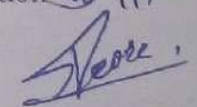

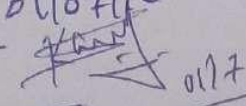

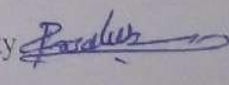

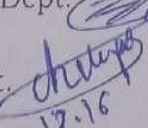

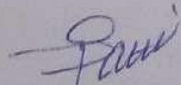

Notice

All the Teaching and Non-teaching staff members & students are hereby informed to remain present for "Tree Plantation Program" at college campus premises today (01/07/2016) at 3.00pm.

Development for differently abled students

For differently abled students institute has made easy access to move around the campus, for this the ramps are provided at different locations and all kind of support is provided for these students.

As per the university rules and regulations for differently abled students the extra time for writing exams will provide after the proper application by the students
